

Heavy Equipment and Automotive Technician **Full-time, Part-time and On-call Positions**

Chief Isaac Mechanical is a diverse mechanic shop located in Dawson City, Yukon. Our mechanic shop is licensed to maintain and repair vehicles of every size, including heavy duty vehicles and RVs. We are actively recruiting several positions for Heavy Equipment and/or Automotive Technician to join our Team.

Work Environment & Responsibilities

- Repair and perform electrical, hydraulic, and mechanical maintenance on various equipment including diesel, LPG units, electric and gas units.
- Program, update, and calibrate on board control systems.
- Diagnosing, servicing, troubleshooting and repairing mobile and stationary equipment.
- Performing preventative maintenance inspections and repairs.
- Order parts and shop supplies as required.
- Work with manufacturers online support.
- Maintain shop tools (such as pressure washer, air compressors, forklifts, etc.).
- Heavy equipment operating experience would be considered an asset.

Additional Tasks

- Comply with all CIM, WCB, and OH&S policies, procedures, rules, and regulations.
- Performance of daily duties in a manner conducive to a safe workplace.
- Use of all Personal Protective Equipment (PPE) applicable to the task at hand.
- Complete daily time cards for work performed.
- Conduct general housekeeping duties around shop and all company vehicles.
- When required, assist fellow employees in other departments.
- Participate in company scheduled training and education opportunities.

Working Conditions

- The majority of the position is in the Dawson City area with possibility of call outs to surrounding areas.
- Opportunity for camp work may be available during the summer production season.
- Work varies between indoor and outdoor work with frequent exposure to adverse weather conditions.
- Temperatures range from average highs of +25°C with peaks in excess of +30°C during the summer months, and lows of -27°C with drops under -40°C during the winter months.
